Project Description					
<input type="checkbox"/> Pre-Qualified (If checked, go directly to "Agreement to Terms and Certification" below)				Project Cost <input style="width: 100px; height: 20px;" type="text"/>	
<input type="checkbox"/> Performance-Based					
<input type="checkbox"/> Gas					
<input type="checkbox"/> Electric (If checked, MUST choose one at right:)		<input type="checkbox"/> Cooling	<input type="checkbox"/> Lighting	<input type="checkbox"/> Motors	<input type="checkbox"/> Controls/VFDs
<input type="checkbox"/> Demand Response (If checked, MUST choose one at right:)		<input type="checkbox"/> On-Site Generation	<input type="checkbox"/> Load Curtailment		
<input type="checkbox"/> Combined Heat and Power (CHP applications must include an engineering analysis following the requirements in the CHP systems manual)					
<input type="checkbox"/> Industrial Process Efficiency (If available, include a process schematic)					
kW Savings	Annual kWh Savings	Fuel Savings (or increas)	Annual \$ Savings	Project Cost	
If applying with a multiple-site project, please provide a site specific breakout of each of the above data.					
<p>Please use this space to describe the project in detail. Include items like baseline equipment and efficiencies, operating schedules, proposed equipment, and efficiencies, etc. If the proposed equipment produces emissions, list the emissions rate. Be sure to attach specification sheets for all equipment proposed for installation.</p>					

Agreement to Terms and Certification			
<p>Pre-qualified projects must submit an application for incentives within 90 days of invoice for the purchase and installation of pre-qualified measures. All other projects must submit the application either before, or within 90 days of, contracting for the project.</p>	<p>I understand that this application may not be approved if the requirements of the program are not met. I understand that final payment will be contingent on meeting all the terms and conditions of the program.</p> <p>If applying for electric incentives, I certify that this Facility is an electricity distribution customer of a New York State</p>	<p>investor-owned utility, and pays the System Benefits Charge.</p> <p>If applying for gas incentives, I certify that this Facility is a gas distribution customer of Con Edison and is assessed the Monthly Rate Adjustment, or is a National Fuel Gas commercial customer.</p>	
<input type="checkbox"/> NYSERDA is instituting a white tags Pilot. By checking this box I transfer ownership and rights to all energy efficiency benefits associated with the this project to NYSERDA - including, but not limited to white tags, environmental certificates, offsets or credits. Collected white tags will be used for increased funding opportunities for NYSERDA's current and future incentive programs.

Applicant _____ Facility _____

Completing the Non-Residential Customer Natural Gas Efficiency Application

- Fill in the appropriate fields for individual natural gas efficiency measures on pages 4 through 6
- To calculate the **Total Incentive** for each measure, multiply the **Count** (quantity of installed equipment) by the **Unit Incentive** and enter this amount in the **Total Incentive** column
- Enter the sum of the **Total Incentive** for each category on the summary worksheet below
- Add these **Total** amounts together for the **Grand Total** amount on the last line

General Eligibility Requirements for Natural Gas Efficiency

- Pre-Qualified projects must submit an application for incentives within 90 days of invoice for the purchase and installation of Pre-Qualified measures
 - All natural gas measures are for National Fuel Gas small non-residential customers using less than 12,000 MCF per year
 - This program is for Existing Facilities only
 - Used or rebuilt equipment is not eligible
 - Please attach:
 - 1) Recent National Fuel Gas utility bills,
 - 2) Invoices, including purchase and installation price, and
 - 3) Equipment specification sheets, including product manufacturer and model number
 - 4) Copy of business certificate or Tax ID#
 - ENERGY STAR requirements for boilers are located at: http://www.energystar.gov/index.cfm?c=boilers.pr_boilers
 - ENERGY STAR requirements for programmable thermostats are located at: http://www.energystar.gov/index.cfm?c=thermostats.pr_thermostats
 - ENERGY STAR requirements for commercial kitchen equipment are located at: http://www.energystar.gov/index.cfm?c=commercial_food_service.commercial_food_service
- Please Note:** all appliances must be installed by a contractor. Non-residential customers applying for a rebate AND the contractor who performed the installation must be able to supply one of the following: Federal ID number, a Certificate of Insurance, or a Business Certificate showing their company's name and address in order for the rebate application to be considered complete. The customized rebates being offered to non-residential customers are available for qualifying equipment purchased and installed on or after November 1, 2007. **The fixed rebates being offered to non-residential customers are available for qualifying equipment installed on or after December 1, 2008.**

Individual Measure Incentive Totals

High Efficiency Furnaces and Boilers ($\leq 300,000$ Btu/h rated input capacity) (page 4) Total \$ _____

High Efficiency Boilers ($> 300,000$ Btu/h rated input capacity) (page 4) Total \$ _____

Water Heating Equipment (page 5). Total \$ _____

Space Heating Equipment (page 5) Total \$ _____

Commercial Kitchen Equipment (page 6) Total \$ _____
