

# Non-Residential Conservation Incentive Program

The National Fuel Conservation Incentive Program offers WNY non-residential customers several money-saving rebates for replacing specified appliances with new, energy-efficient models.

## Two Ways to Save with National Fuel:

<b>1.</b>	<b>Fixed (Pre-Qualified) Rebate</b>	Available on pre-qualified equipment. (See table below.)
<b>2.</b>	<b>Customized (Performance-Based) Rebate</b>	Determined on a case-by-case basis, based on the results of an energy-use analysis. Customized rebates are determined by multiplying the annual energy savings in Mcf by \$15. This may result in a larger rebate compared with the fixed rebate.

### Free Technical Assistance.

As a courtesy to both our customers and contractors, National Fuel has partnered with C.J. Brown Energy to provide free technical assistance with the application process. Contact C.J. Brown Energy at 1-844-365-3493 or email [NFRbateHelp@cjbrownenergy.com](mailto:NFRbateHelp@cjbrownenergy.com).
